RAILWAY RAMBLERS

This document will help walk leaders to provide the information that members have asked for in the club's walk programmes. If you are using the version created in Microsoft Word, the boxes on the right will expand as you type in them.

'Optional extras' are car parking details, grid references for obscure locations, an assessment of walking difficulty, and estimated finishing time. The location of the lunch stop, if known, is useful for members who cannot do the whole walk.

Walk Leaders' Template (Example)	
Day and Date	Sat 2 April 2011
Title of Walk *(optional)*	The Downs Link (South)
Start and End Points	Henfield to Shoreham
Approx. Distance *(in miles)*	8 miles
Meeting Place and Time	Downs Link Car park, Henfield (grid reference TQ 205163) at 10:30 a.m.
What's Special About This Walk *(Try to 'sell' your walk so that people will want to come on it)*	A chance to enjoy a spring walk through the South Downs and the Adur Valley. There are extensive views and should be plenty of spring flowers. The railway's timber bridge over the River Adur just north of Shoreham is a remarkable survivor and has recently been restored.
Special Requirements *(Tunnels might require hard hats and torches; wet ground conditions require suitable footwear)*	The surface can be muddy south of Bramber, so wear sensible boots or shoes.
Lunch Arrangements	Pub lunch at The Star Inn, Steyning (good home made food and choice of real ales)
Travel Arrangements *(How to get there and how members will get back to the start)*	Henfield is served by hourly buses between Brighton and Horsham (both rail-connected) but car sharing will be required to get walkers back to the start as there are no longer any buses between Shoreham and Henfield. Please contact the walk leader 1-2 weeks in advance if you can help in this way.
Map Numbers *(OS Landranger and/or Explorer series)*	OS Landranger 198 or Explorer 122
Walk Leader(s)	James Ballast-Crusher
Contact Details	Tel 099 3599 9901; email james@ballast-crusher.com
